DHL Parcel Germany

Obtaining the API Key

The process involves registering your application on the DHL API Developer Portal to enable DHL parcel Germany tracking. Each customer is required to go through the following steps:

1. Go to the DHL API Developer Portal by **navigating** to https://developer.dhl.com/. If you don't have an account, **register** for one and **log in**. Once logged in, **navigate** to your account dashboard.
2. **Locate** and **click** on the "Create App" button.
3. In the "App Name" section, **enter** your application name.
4. In the "Select APIs" section, find and **choose** "Shipping Tracking—Unified." If necessary, **Use** the search box.
5. Below the API selection, **click** "Add to App" to set rate limits for your app.
6. After configuring the details, **click** the "Create App" button at the bottom of the page.
7. Your application status is now "In Progress" and awaiting confirmation. **Click** on the app you just created to access its details.
8. From the app details, **find and note down** the API key.
9. If your tracking requirements exceed 250 calls a day, consider upgrading. **Click** on the "Upgrade Rate Limit" button in the app details. **Fill in** the necessary information, specifying the desired daily call limit. **Submit** the request, and DHL will review and adjust your application's limits accordingly.

Setting Up DHL Parcel Germany

This document provides a step-by-step guide to integrating DHL Parcel Germany with **Voila**. Follow these instructions to integrate DHL Parcel Germany into your system:

1. Begin by **navigating** to the left panel and hovering your cursor over "API Accounts."
2. **Click** the plus icon to initiate the setup process under your preferred API Account.
3. In the first row, **choose** "DHL Parcel Germany" from the list of available options.
4. The following fields are required for setting up DHL Parcel Germany integration:
   - **Company**: **Enter** any identifier you prefer.
   - **Testing**: This is a simple **yes or no** selection. If enabled, the information will not be transmitted to the courier through their API, making it suitable for testing.
   - **API_Key, Username, Password, Billing_Number, Profile: Obtain** these details through DHL Parcel Germany's platform or contact them directly to acquire this information.
   - **Notes**: Use this field to **enter** relevant information or notes regarding this courier. It will only be visible to you.
5. To complete the setup, **click** on "Save Changes."

By following these steps, you will successfully configure the DHL Parcel Germany integration with your **Voila** account.
