FedExV2

Overview

This document provides a step-by-step guide to integrating FedExV2 with **Voila**. Follow these instructions to integrate FedExV2 into your system:

1. Begin by **navigating** to the left panel and hovering your cursor over "API Accounts."
2. **Click** the plus icon to initiate the setup process under your preferred API Account.
3. In the first row, **choose** "FedExV2" from the list of available options.
4. The following fields are required for setting up FedExV2 integration:
   - **Company**: **Enter** any identifier you prefer.
   - **Testing**: This is a simple **yes or no** selection. If enabled, the information will not be transmitted to the courier through their API, making it suitable for testing.
   - **Client Id, Client Secret, Account No, Letter Head Image Id, Letter Head Base 64, Letterhead Image Name, Signature Image Id, Signature Base 64, Signature Image Name, Tracking Configuration(Tracking Client Id, Tracking client Secret)**: **Obtain** these details through FedExV2 platform or contact them directly to acquire this information.
   - **Notes**: Use this field to **enter** relevant information or notes regarding this courier. It will only be visible to you.
5. To complete the setup, **click** on "Save Changes."

By following these steps, you will successfully configure the FedExV2 integration with your **Voila** account.
